

MONTESSORI RADMOOR SCHOOL

Mobile Modular provided a daycare with several new classrooms, restrooms, and a warming kitchen during COVID-19.

THE CHALLENGE

During the COVID-19 pandemic, Montessori Radmoor School was looking for additional classrooms along with site upgrades. Because of the lack of onsite construction resources and manpower during this time, Mobile Modular was chosen to work alongside Stevens Architects for a turnkey solution for the campus.

THE SOLUTION

Mobile Modular orchestrated the design and construction of a custom modular building, including three classrooms, restrooms, and a warming kitchen. They handled everything from design and manufacturing to delivery, installation, and site hook-ups, ensuring a seamless, turnkey solution. Mobile Modular's involvement extended to securing zoning approvals, managing inspections, and providing on-site supervision to address safety concerns. The result was a custom modular addition at Montessori Radmoor School that seamlessly integrated with the campus, giving it a permanent, site-built feel.
