

NATURE WALK MONTESSORI SCHOOL

Mobile Modular created a permanent Montessori school that fits the surrounding nature and stayed within Nature Walk Montessori School's budget.

THE CHALLENGE

Nature Walk Montessori School in Round Lake, IL was looking to open its doors for the upcoming school year. It was important to the owner that the structure would fit into the surrounding nature of the property as well as stay within their budget. Also, to protect their investment, the school needed to be sure that the production time was predictable as any delays would have an impact on the school's enrollment if they were not able to open according to the neighboring public school calendars.

Customer Name: Nature Walk Montessori School

Project Location: Round Lake, IL

Building Type(s): Modular Classrooms

Job Type: Sale

Total Sq. Ft: 4,200 q. ft.

THE SOLUTION

Nature Walk Montessori School ultimately chose modular to meet the challenges they faced in opening the school's doors. Utilizing modular construction made it possible for the owners to act as general contractors and have more control over the entire project. They were involved in the special design that accommodates the needs of the students and the construction details were left to our team.
