

SAINT XAVIER UNIVERSITY 3D ART STUDIO

Mobile Modular created a permanent modular art studio for Saint Xavier University that fit the aesthetic of the historic campus.

THE CHALLENGE

Mobile Modular was contacted by Saint Xavier University in Chicago, IL to create a permanent building for their 3-D Art Studio. Taking the history of the campus into account, we installed an exterior facade to complement the existing university building including a split face CMU base, smooth brick finish, fiber cement board panels, and metal coping.

Customer Name: Saint Xavier University

Project Location: Chicago, IL

Building Type(s): Modular Classrooms

Job Type: Sale

Total Sq. Ft: 1,606 sq. ft.

THE SOLUTION

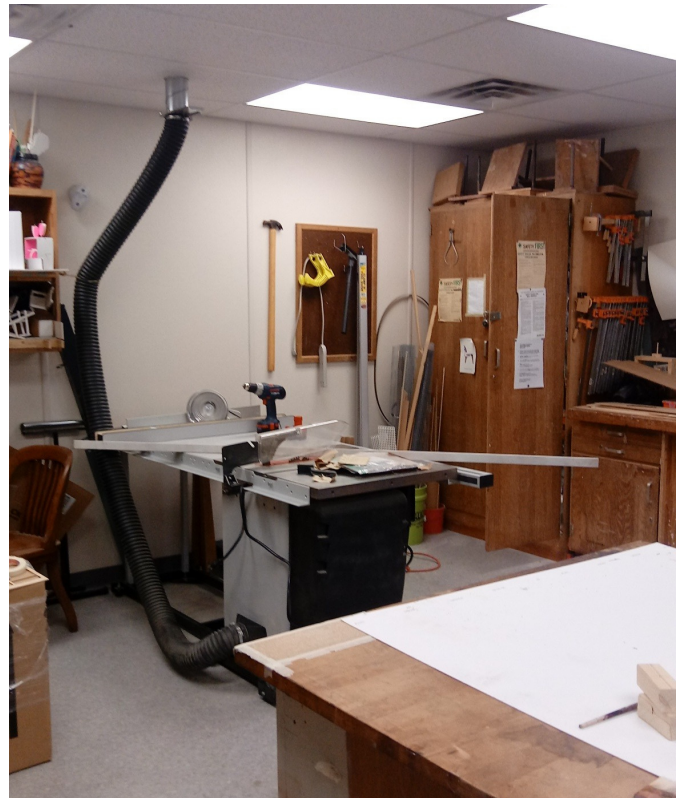

This building also includes specialized art equipment, a fume hood, a kiln, and a dust collection system. With a vestibule entry, card reader access for security, lights controlled by occupancy sensors, and large aluminum mill storefront windows to provide natural light with gray tinting for privacy, this building maintains the campus aesthetics while incorporating the needs of the client with functional and security features.
