

UNIVERSITY OF TEXAS - SAN ANTONIO

Mobile Modular worked with the University of Texas - San Antonio to complete a success center where students and advisors collaborate under one roof.

Student Success Center

THE CHALLENGE

University of Texas - San Antonio (USTA) needed a building solution that allowed them to consolidate all of their student advisors under one roof. This would provide an efficient place for students to connect with their advisors and for the advisors to collaborate together.

Customer Name: University of Texas - San Antonio

Project Location: San Antonio, TX

Building Type(s): Modular Offices

Module Count: 46

Total Sq. Ft.: 30,000+ sq. ft.

THE SOLUTION

The quick installation of completed modules reduced time on site which in turn reduced the impact on the daily life of students and staff. The result was a beautiful, 30,000+ sq. ft. office building in the heart of campus that was built during an active school semester.
